

Please do not give LPFM priority over current FM translator service. My family listens to K-LOVE Christian stations that could be forced off the air if this plan is instituted. It is very difficult to find clean, family-oriented music and radio stations. Christian stations are hard to find and since they aren't "profitable" will be adversely affected by this proposal. K-LOVE stations serve the public interest by providing a resource for the Christian community that can't be found or provided as cheaply in other forums. Thanks.
